Comments: we the undersigned, protest any shipment of nuclear waste going to Yucca Mountain in Nevada. We have protested this before the terrorist attack in New York and Washington D.C. prior to

September 11th. how can our government ask us to store nuclear waste so close to a major city? Especially when terrorists can commit a terrorist act against those shipments. I hope that the government is sued and prevented legally from bringing the worlds used waste to our state. you are not concerned about our health. I already have leukemia. our government officials, and those of Nevada officials would have to be completely insane to ship and store that waste, when terrorists could dive an airplane into the mountain and release nuclear waste. ship the waste to siberia. russia offered a place where it is so cold, that few humans, if any, live there. russia just wants the money for this favor.
